Data Publication

It is expected that a Data Publication will ensure that data will potentially be considered as a first-class research output | Knowledge Exchange (2013).

Publishing with a capital "P"

- Properly documented with metadata;
- Reviewed for quality;
- Searchable and discoverable in catalogues (or databases);
- Citable in articles

Publishing with a small "p"

- there are no guarantees that the data will be there after some time or that the files will not get corrupted.

Data Publishing Routes

+ Journal supplementary material service

+ Institutional data repository

+ General purpose repository

+ Domain specific data repository

+ Trusted domain specific data repository

Why publish with CESSDA archives?

- (Trusted) domain specific data repositories
- Advantage of having expert help within reach
- Accessible and protected when needed
- Comprehensibility
- Findability and visibility
- Accessibility and reusability
- Longevity
- Quality

ADP evaluates the importance of research data for science and their long-term usability.

Acquired data are acknowledged as a scientific publication in their own right and represent a basis for quantitative assessments of scientific excellence in accordance with the criteria of the Slovenian Research Agency.

Open data and RDM activities on national level

ADP being involved in:

[„OPEN DATA“ Action plan](#) for establishing a system of open access to research data funded by public sources (project funded by Slovenian Ministry of Education, Science and Sport)

In 2011, 22 interviews, 17 different disciplines

REPUBLIC OF SLOVENIA
