# About the ...

## Postgraduate scholarships

### Swiss Government Excellence Scholarships

Through the Swiss Federal Commission for Scholarships for Foreign Students (FCS aka ESKAS, CFBE), the Swiss Government grants foreign researchers postgraduate scholarships at Swiss higher education institutions (Universities, Federal Institutes of Technology and Universities of Applied Sciences, Arts and Music Schools).

The Swiss Government Excellence Scholarships are intended for highly motivated, competitive young researchers who have graduated from university (postgraduates). These scholarships will enable applicants to undertake research work in the fields in which the Swiss universities are particularly active.

## Read the FCS webpage

Specific scholarship types are offered for each country. Please go to the FCS webpage in order to see **which type of scholarship is offered to your country of origin.**

Click FCS website: [www.sbf.admin.ch/scholarships\\_eng](http://www.sbf.admin.ch/scholarships_eng)

## Submit in your country of origin

**Applications have to be submitted in the candidate's country of origin (citizenship).** All candidates for a Swiss Government Excellence Scholarship have to submit their application at the specified contact (normally the Swiss Embassy) responsible for their country of origin. Double citizens are free to choose the country of origin where they prefer to submit their application.

The applications have to be submitted for a preliminary selection to the national institution in charge and/or to the Swiss diplomatic representation in the applicant's country of origin. The Swiss diplomatic representation will then forward the pre-selected applications to the FCS for final selection. In case your current country of residence is not your country of origin please submit your application to the Swiss diplomatic representation in your country of origin.

# Selection criteria

## Important selection criteria

### The 3 dimensions of selection criteria

The Swiss Government Excellence Scholarships are highly competitive. The following aspects of the application are considered mainly:

#### 1) The candidate

Her/his academic profile, the research capacity and motivation.

#### 2) The research proposal

Its originality and methodological soundness.

#### 3) The academic context

The quality and context of supervision and the potential for future academic cooperation.

## Strengthening cooperation

### Longterm perspective

Candidates submitting their applications within the framework of a cooperation program between their academic home institution, where they are at the moment and/or where they accomplished their education, and a Swiss university/institute have a certain priority.

# Academic host – a precondition

## Academic supervisor aka host professor

### Academic supervisor

To have an eligible application package, each applicant wishing to undertake a research, PhD or a Postdoctoral scholarship must find a host professor in Switzerland willing to support and entitled to supervise their scholarship research project or PhD project.

A letter of invitation must imperatively be part of the application package. This is also valid for doctoral schools.

**Failure to have an academic supervisor will result in the rejection of the application** by the relevant national institution in the host country or by the Swiss diplomatic representation. An application without a host professor is not complete and will therefore be rejected.

## Before contacting a host professor

### Prepare yourself well before contacting a prospective host professor

Make sure that the prospective academic supervisor actually works in your field at a Swiss university. Be specific and furthermore make sure that you possess all of the competences required for the intended scientific collaboration. Find out, for instance, what requirements must be met in order to obtain a Master's degree at the university in question before contacting professors.

Note: Many professors receive numerous requests. Finding a professor who is willing to supervise you can be a major challenge. It can take several weeks or even months.

## Some hint

Watch this video for some hint before contacting a supervising professor:

<https://www.youtube.com/watch?v=kp4NnqZ2T00>

## Please note

The FCS application for a PhD scholarship including the support letter of a prospective host professor and the application for admission by a Swiss University for a PhD study are two separate procedures.

# Finding your supervisor

## Where to find

### A prerequisite for the application

All Swiss Government Excellence Scholarships are supervised and supported by a professor. The first step in the application process for the scholarship candidate is to find a professor at a Swiss academic institution **willing to act as her/his academic supervisor** for the scholarship research project.

What should you do before contacting a potential academic supervisor?

Watch this: <https://www.youtube.com/watch?v=kp4NngZ2T00>

The FCS encourages candidates to find their academic supervisor on their own. There is no specific support offered in this bottom-up matching process. It is each applicants own task. A support letter from a host professor is required in any case. This is valid for doctoral school PhD applications as well. If the chosen doctoral school does not allow you to contact a supervisor before being admitted to the school, an application for the Swiss Government Excellence Scholarship is not possible.

## Good to know

### Understanding the role of academic supervisors

Professors reported to the FCS that they are frequently contacted by scholarship applicants asking for support. Therefore the FCS secretariat issued a leaflet explaining the role of an academic supervisor for a Swiss Government Excellence Scholarship holder.

The FCS recommends potential academic supervisors not to support more than 1 - 2 applicants per year. You find the leaflet «Will you be my supervisor?» enclosed in your application package. Feel free to use it when contacting your potential supervisor.

# PhD Scholarships

## Further important information for PhD applicants

**Two separate procedures:  
Application and admission**

The FCS application for a PhD scholarship and the application for admission by a Swiss university for a PhD study are two separate procedures. The admission to a PhD study at your chosen Swiss university is *a conditio sine qua non* for a potential attribution of a FCS scholarship – but no guarantee though for a positive decision by the Federal Commission for Scholarships FCS. It is the applicant's responsibility to manage both procedures in parallel.

**Two different ways to achieve a PhD**

**The first way** to achieve a doctorate degree (aka PhD) consists in undertaking **doctoral studies under the supervision of an academic mentor** (supervisor). In this case, the **admission to the PhD takes place after the scholarship start**.

**For doctoral school applicants additional document required**

**The second way** consists in **being admitted to a doctoral school**, which provides the framework for the following doctoral studies. Please inquire your admission directly at the corresponding school.

- In addition to all other application documents (including the support letter from a supervisor), the **admission letter from the doctoral school is required with the application dossier**. As this takes time applicants must plan accordingly and submit their application for admission to the doctoral school sufficiently in advance of the scholarship programme deadline.
- If the chosen doctoral school does not allow you to contact a supervisor before being admitted to the doctoral school, the application for the Swiss Government Excellence Scholarship is not possible.
- In case you do not get the admission to the doctoral school until the application deadline, and therefore cannot apply for the next academic year, you can always begin your studies without the Swiss Government Excellence Scholarship and then apply for the following academic year. Please note: the exclusion criteria «Applicants who are in Switzerland since more than one year at the beginning of the scholarship» stays effective.

The arts and music scholarships are granted for studies in the public music academies, as well as art and design schools.

## Useful weblinks

This scholarship primarily offers an opportunity to scholars who have not already been to Switzerland. Scholarship applicants may not be resident in Switzerland since more than one year when they start their grant next September. Otherwise they are not eligible. They must comply with the FCS instructions, regulations concerning the residence for foreigners in Switzerland and with the university/art institution regulations.

## **No family allowances**

### **Family and children**

The FCS does not have the authority to decide on the possibility of bringing the family of the scholarship holder to Switzerland. This is left to the Federal and Cantonal Migration Offices, which at present deal with requests very restrictively. The scholarship amount covers the living costs of one person only. There are no additional family allowances.

## **Notifying FCS about other grants and other forms of financial support**

### **Other grants and additional income**

If you are awarded another additional scholarship or you receive other forms of financial support (such as income from teaching and research assistance, etc.) you are asked to notify the Federal Commission for Scholarships.
